

USER TRAINING OPERATIONAL ARMOURY MANAGEMENT

Course ID	STID-ACD-BEW-11
Duration	1 hour
Format	OST
Certified Training	Yes
Languages	FR / EN

MASTER DAILY USE OF BE.WEAPON

BE.Weapon is an innovative solution for armoury equipment management and traceability, used by law-enforcement agencies, municipal police forces, private security services, and the armed forces.

This training is specifically designed for daily users of the BE.Weapon solution, enabling them to efficiently and securely manage the check-in and check-out of weapons and equipment in full compliance with regulations.

Through interactive training, participants will learn how to navigate the BE.Weapon interface, record equipment movements, and optimize equipment management for reliable and structured tracking.

PREREQUISITES

- Install Be Weapon

TARGET AUDIENCE

This training is intended for:

- Daily users of BE.Weapon (law-enforcement agencies, municipal police, private security services, armed forces)
- Partners and collaborators involved in the operational management of armouries

LEARNING OBJECTIVES

Understand how BE.Weapon works and its benefits for daily equipment management

Master BE.Weapon user interface for fast and efficient operation

Record weapons and equipment during check-in and check-out

Minimize errors and ensure regulatory compliance in armoury management

Ensure reliable and accurate tracking of assigned, available, or under-maintenance weapons
