INTRODUCTION TO RISE

RISE

EDITORIAL

STid is much more than a contactless identification player — it's a company placing people at the heart of its mission. I believe in cybersecurity that protects what matters most: people, their data, and our future. STid moves forward with RISE, our CSR strategy, to make this a reality.

Vincent Dupart, CEO STid Group

RISE : A COLLECTIVE INITIATIVE

In 2022, we created our **Group CSR Department** and built a collaborative strategy we chose to name **RISE**, officially launched in January 2024.

Why RISE?

To embody **our commitment**, because we believe everyone can be a driver of change. In this spirit, we move forward aiming to innovate and go further!

RISE marks a strong commitment to:

- + Combining performance and responsibility,
- + Inviting all our internal and external stakeholders to act, innovate, and take initiatives,
- + A collective adventure where everyone has a role to play.

STID GROUP

RISE

**PROTECT
ORGANIZATIONS'
STRATEGIC ASSETS:
PROPERTY, PEOPLE & DATA.**

OUR PURPOSE

We protect organizations' strategic assets through **the most secure, open, and environmentally respectful** contactless identification solutions.

LEADER

WE HAVE A VISION.

We advocate a new approach to security.

WE CHANGE THE RULES.

We revolutionize security industry standards.

#BeSTid

#BeDIFFERENT

INNOVATIVE EXPERT

We rethink security by combining innovation and sovereignty. Our secure identification solutions guarantee maximum data protection while remaining open and interoperable.

MARKET LEADER

We drive the industry forward by setting new standards. Through SPAC Alliance, we promote interoperability and the sovereignty of security solutions, for a more open and reliable market.

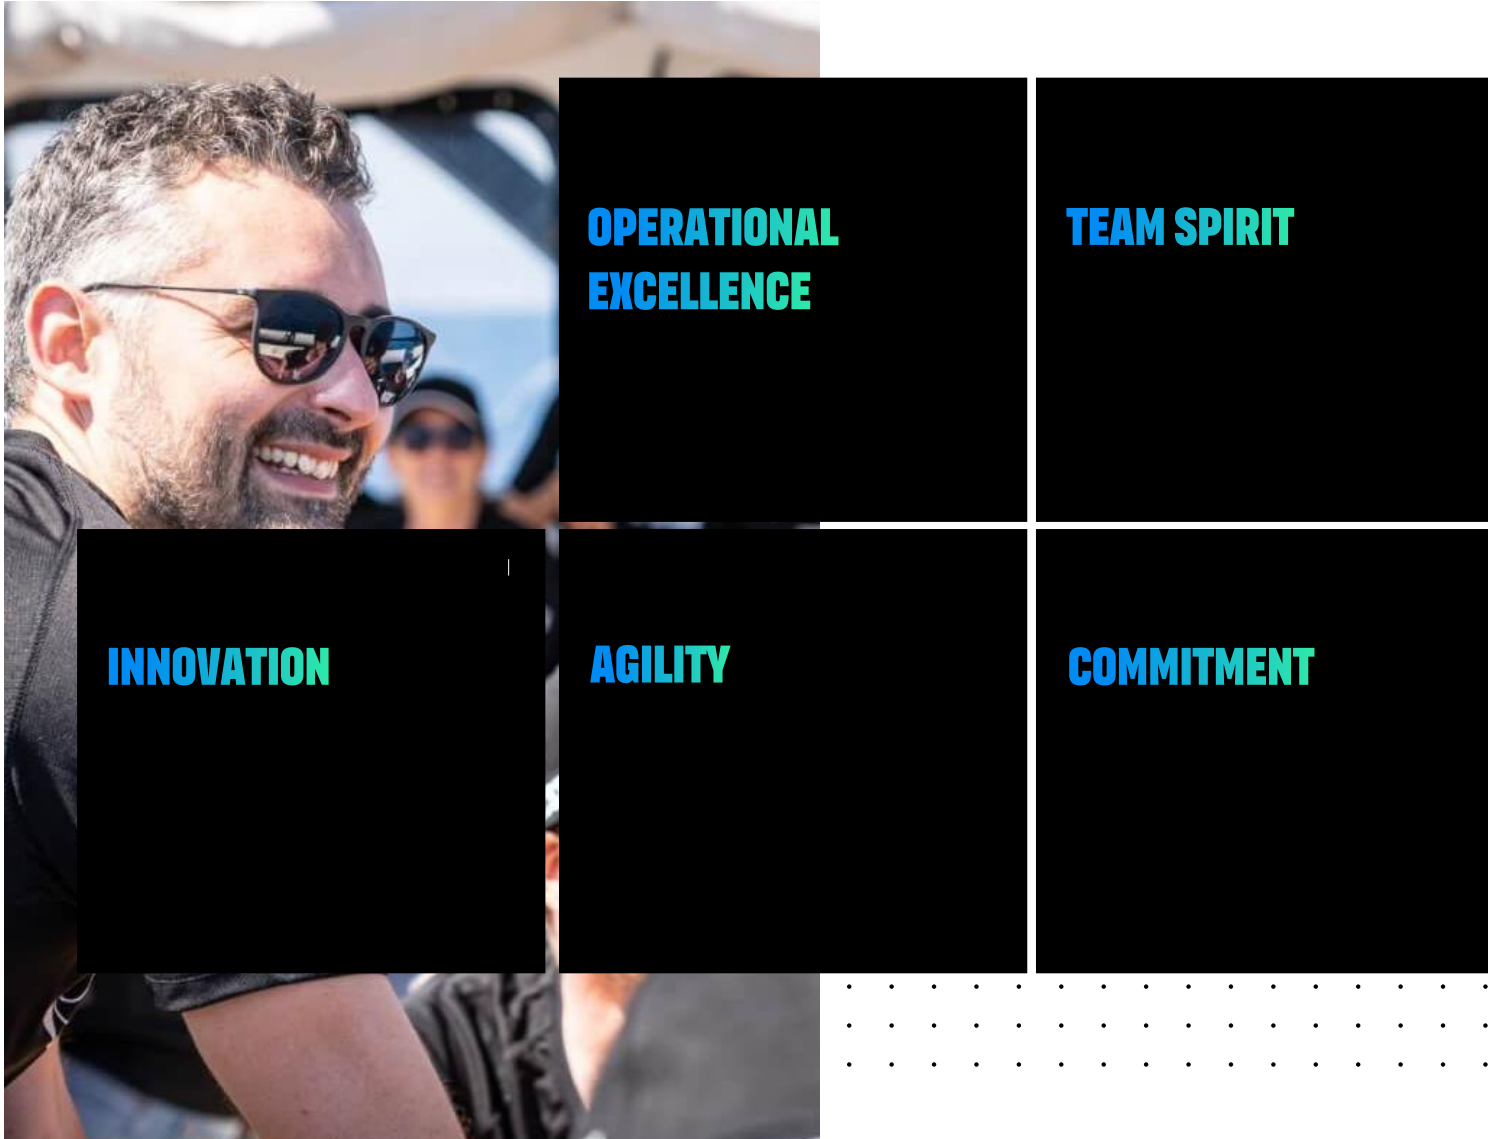

OPEN AND ROBUST ECOSYSTEM

Our technologies integrate easily into any ecosystem, offering more flexibility and choice for users.

PARTNERSHIP FIRST

We build lasting relationships with our customers by creating high value-added offers throughout the value chain.

WE DRIVE STRONG VALUES

We don't pretend!

Our values are more than just words — they were chosen by our employees themselves. They're embodied everywhere, all the time.

CSR AT THE HEART OF OUR DNA

A HISTORIC COMMITMENT

STid has always sought to minimize the environmental footprint of its products through a responsible, human-centered approach.

The Architect range (10 years this year) was designed to:

- + Last over time (against planned obsolescence),
- + Maintain world-class security levels,
- + Limit waste and stock through a unique electronic board,
- + Better withstand demanding environments by replacing resin with PCB tropicalization.
