

4 Training: level 2 MIFARE Plus® / DESFire® EV1 technologies

Boost your RFID expertise

STid supports your development and helps you easily integrate RFID technology!

With our training program, you will gain an in-depth understanding of RFID technologies and will be able to update your existing applications in order to enjoy the latest features and get the most out of your equipment. Learn new, cutting edge skills to help you integrate, install and sell your RFID technologies and equipments. Our goal is to offer STid expertise to support your organization, providing both technical and commercial knowledge that is specific to your field. We bring added-value to your RFID retail, integration or distribution activities.

Discover, understand and implement new technologies! This module focuses on the integration of MIFARE Plus® and DESFire® EV1 technologies in access control systems. The workshop features a full presentation of these two technologies and their applications with several practical case studies. This advanced training module will enable you to develop applications that use these technologies, with a secure systems-level communications protocol.

▶ Customer Benefits

- Improve your understanding of MIFARE Plus® and DESFire® EV1 technologies.
- Gain complete technical skills which will help you to understand cryptography mechanisms (authentication, confidentiality, AES, 3-DES, HMAC SHA-1, etc.).
- Master the key techniques for implementing these technologies in access control systems.

▶ Teaching methods

You will receive both theoretical and practical training, led by a professional instructor specializing in radiofrequency electronic systems. Written materials are provided during training.

▶ Target audience

Innovation and Strategic Investment Programme Managers, Supply Chain, Project Managers, Product Managers, Sales Managers, Operations and IT System Managers.

▶ Prerequisites

Advising, integrating, installing or using RFID solutions

▶ Handouts

- Paper materials
- Training certificate

More than a RFID manufacturer...

Reinforce your skills, update your knowledge about the various RFID technologies, distance yourself from your competition by getting innovative know-how: these are STid's goals and it aims to achieve them by offering RFID trainings closely corresponding to the needs of your professions.

STid provides a wide range of training services to its international client-base through an excellent team of trainers who bring knowledge and expertise to your company. We offer custom-made trainings for your sales and technical services. STid is a training organization declared under the activity number 93 13 13328 13.

Strengths of the training:

- **Method and tools:** participants receive handouts specific to each RFID module.
- **Case studies based on real-life situations:** adapted from situations encountered in all kinds of organizations.
- **Intensive and comprehensive modules:** covering all fields indispensable to the application of RFID technology.

Schedule

Day 1	
Morning: 9H00 to 12H30	
Review of chip characteristics and options	<ul style="list-style-type: none"> • MIFARE Plus® and DESFire® EV1 Level 1 Training - Summary
Afternoon: 14H00 to 17H30	
Using a secure communication protocol	<ul style="list-style-type: none"> • Introduction • Protocol structure • Range of different security algorithms • Principle of the mutual authentication system • Examples of commands
Day 2	
Morning: 9H00 to 12H30	
DESFire® Module	<ul style="list-style-type: none"> • Reminder of chip options • Understanding of commands • Use of commands (sequence and logic)
Using a DESFire® chip	<ul style="list-style-type: none"> • Practical assignments in creating applications with different settings
Afternoon: 14H00 to 17H30	
Using a chip with a secure reader-level command set	<ul style="list-style-type: none"> • Practical assignments in creating applications with different settings • Use of a reader, mainly in its secure form
Development tools	<ul style="list-style-type: none"> • Content, approaches and possible uses
Part number	FORMATION_CAT2_N4

Choose the training site of your team: at our headquarters (13, Grésasque, France) or directly on your site.
