Complies with GDPR

STid
Electronic Identification

BE.WEAPON ENABLES ARMORY MANAGERS TO AUTOMATICALLY AND SECURELY MANAGE INVENTORIES AND CHECK-IN / CHECK-OUT OPERATIONS FOR WEAPONS AND EQUIPMENT (E.G. BULLETPROOF VESTS, MUNITIONS, HELMETS, BINOCULARS, NIGHT-VISION GOGGLES, ETC.).

BE FREE
EASY DIGITAL TRANSITION FOR YOUR ARMORIES

Made-to-measure installation and integration of the solution within your armories

Customized support for equipment "tagging" and team training

Direct and remote access to all management information by centralizing data on your servers (secure access for authorized personnel)

BE SURE
SECURE YOUR ARMORIES

Electronically identify and authenticate each officer before handing over any equipment

Automatically link each item to the identified officer

Quickly draw up comprehensive and reliable inventories and daily equipment allocation logs (in accordance with current regulations)

Stay in control of your data by hosting **BE.WEAPON** on your servers

BE SMART
MAKE YOUR ARMORIES SMART AND CONNECTED

Improve armory performance

Optimize human and equipment flows within your armories

Improve intervention response times

Reduce waiting times during equipment distribution and returns
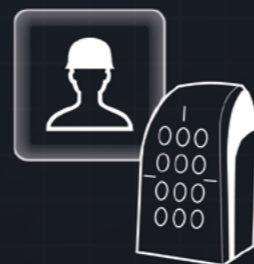

Optimize equipment maintenance processes

Remove stock discrepancies and equipment losses in armories
